

Airlines Are Trying to Force Hippies to Wash and Wear Shoes

By KELLY SMITH
Associated Press Writer
WASHINGTON (AP) — It all boils down to shoes and socks. At stake: Can you get on a commercial airliner barefoot?
Hippies, those self-styled flower children who often plane-hop from demonstration to demonstration, show up at airline ticket counters with gutters, long hair—and often no shoes.
Airlines have rules about passengers. They won't accept babies under 7 days old, the mentally deranged, anyone with a contagious disease, or drunks.
But someone without shoes? Or someone who needs a bath? "We don't want to dictate fashion," said an Eastern Airlines spokesman, "but we now require shoes." So does the Public Health Service.
"Shoes are a question of policy," said American Airlines in New York. "We're meeting this week with other airlines to discuss such a policy."
An industry journal, Aviation Daily, says "airlines should exercise their right to refuse passage to those not meeting cleanliness standards."
The American Civil Liberties Union says airlines have no authority to decide cleanliness. "No right at all," said a spokesman. "To do so is the same kind of reasoning that kept Negroes in the back of the bus."
The Federal Aviation Agency says shoes are out of its jurisdiction. "Congress," said a spokesman, "has not given us statutory authority to make passengers bathe before boarding an airliner, unless it can be proven their presence has an adverse effect on aviation safety."
The FAA did deal indirectly with gutter-playing hippies last week by ruling that a passenger can take aboard only one piece of hand luggage, and it must fit under his seat. Gutters don't fit.
"Which does away with in-flight entertaining," noted United Airlines.

Abusive Calls to Pentagon Decrease

WASHINGTON (AP) — The Pentagon reports a great decrease in abusive telephone calls to relatives of U.S. servicemen in Vietnam.
"Calls are continuing as far as is known, but at a greatly reduced level from the 1965 Vietnam buildup period," the Defense Department said Thursday in response to inquiries about the present situation.
The tracing of abusive telephone calls "has proven very successful in attacking this problem," the Pentagon said.
Tracing was started last year and the Pentagon credited the American Telephone & Telegraph Co. with cooperation in the effort.
A rash of abusive telephone calls and some other forms of harassment caused considerable concern to American soldiers in Vietnam.
Some soldiers talking with newsmen in Vietnam have declined to give their home towns or to list the names of their wives or mothers, expressing fear that persons opposed to the war might see the names in print and make upsetting calls to the families.
Responding to the problem, the Senate earlier this year passed a bill by Sen. John Pastore, D-R.I., that would provide federal penalties for "obscene and harassing telephone calls."
The bill, awaiting action by the House Commerce Committee, would impose a maximum \$500 fine or six months in jail on anyone convicted of using interstate telephone lines for such purposes.
While asserting the number of such calls has been sharply reduced, the Pentagon said it was unable to provide any figures. "The armed services do not maintain formal reporting requirements in this respect," it said.
The Pentagon also disclaimed any knowledge of arrests or convictions growing out of such calls or other harassment involving service families.

Surveyor 6 Sends Back Moon Shots

By RALPH DIGHTON
AP Science Writer
PASADENA, Calif. (AP) — Surveyor 6 televised pictures of a very rugged area of the moon today after a lucky soft-landing that climaxed a day of space successes for the United States.
The three-legged spacecraft touched down at 8:01 p.m. EST Thursday just hours after a capsule like the one expected to carry three Apollo astronauts to the moon splashed into the Pacific, ending a successful test of a 36-story-tall Saturn 5 rocket.
Surveyor Program Manager Benjamin Milwitzky told newsmen the double success was "a major step toward landing men on the moon" in 1969. It gives the United States wide flexibility in choosing a landing site, he said.
Within an hour after landing, apparently on a slight slope, Surveyor 6 began sending excellent pictures of the roughest terrain yet photographed in the moon-scouting program. One showed a cliff-like prominence on the horizon a mile away. Others pictured narrow depressions nearby which scientists said they could not immediately explain.
Milwitzky said good fortune played a part in the successful landing—on a surface so rugged Surveyor 6 was given only a 50-50 chance prior to launch Tuesday from Cape Kennedy, Fla.
The 650-pound spacecraft worked flawlessly as it approached the target area in Medid—Central Bay—almost dead center on the lunar disc. Braking rockets fired about 60 miles above the surface, slowed its 3,600-mile-an-hour speed to three miles per hour in three minutes and the craft dropped gently to the surface.
As pictures started streaming in to flight controllers at the laboratory, Milwitzky said, "We have now satisfied all our obligations to explore beforehand the four equatorial sites believed safest for manned landings."
The Sinus Medii area had never been photographed at close range. Surveyors 2 and 4, aimed at that region, failed in their missions, giving rise to early fears that an even-number jinx might endanger Surveyor 6.
The seventh and final Surveyor, due to be launched in January, will be aimed at some mountainous region outside the Apollo target zone to help scientists learn if moon highlands are similar to those on earth.

Suggests Rice Law Changes

WASHINGTON (AP) — Agriculture Department officials suggested to Congress Thursday a change in existing laws to allow rice farmers, who over plant their rice allotment, to be eligible for price support payments if they deliver the excess rice to the Commodity Credit Corp.
Under present laws, a farmer who plants in excess of his allotment, must destroy the excess plantings 30 days before harvest time in order to avoid penalties and be eligible for the price support.
If he doesn't, he can escape the penalty by delivering the excess rice to the CCC, but he is still ineligible for the price supports.
Agriculture Department officials said rice fields frequently are "under water" and that this makes it very difficult for a farmer to destroy his excess 30 days before harvest.

GOPs Vow to Fight Hike in SS Benefits

WASHINGTON (AP) — Senate Republicans vow a floor fight against a proposed record boost in Social Security benefits they contend has a financing feature pegged to help Democrats in the 1968 elections.
The \$3.6 billion measure to provide 15 per cent benefit hikes cleared the Senate Finance Committee on a party-line, 11-0 vote Thursday. Chairman Russell B. Long, D-La., predicted quick approval for the measure when the Senate takes it up, probably next week.
The bill would boost benefits beginning next April—before November's presidential race—but wouldn't increase Social Security taxes until January 1969.
That financing schedule was called irresponsible and politically motivated by Sen. John J. Williams of Delaware, senior Republican on the Finance Committee. He predicted stiff GOP opposition aimed at reducing the hike in benefits to the 12 1/2 per cent level already approved by the House.
Senate GOP Leader Everett M. Dirksen, indicating the line Republicans will take in opposing the measure, called it a "fly now, pay later" scheme.
Under the Senate committee bill, the present payroll tax rate of 4.4 per cent for employee and employer would be continued through 1968. The taxable wage base would be broadened effective next Jan. 1 from \$6,600 to \$8,000.
Thus a worker earning at least \$8,000 and his employer each would pay a maximum of \$352 next year in Social Security taxes compared with the current \$290.40 maximum.
The bill provides that beginning in 1969 the tax rate would be raised to 4.8 per cent and the wage base would go up to \$8,800, with other increases scheduled in future years.
In addition to the 15 per cent

including the Coast Guard—in four states and on the high seas. Johnson's fast-paced travels were keyed to the observance Saturday of Veterans Day.
The President got scant rest before taking off. Without advance White House announcement, he flew Thursday night to New York City to speak before some 1,000 patrons of a dinner sponsored by an arm of the Jewish Labor Committee. AFL-CIO President George Meany was the honored guest.
Johnson, long noted for his nonbelligerent "come let us reason together" phrases, tried out a new, fighting style—to the obvious delight of an audience that interrupted with such cries as, "Give 'em hell!"
It's been apparent for several weeks that Johnson has been deeply concerned about public opinion polls depicting him as the underdog in the 1968 election if he decides to seek another term. His tougher language seems a direct new bid to generate voter backing for his policies.
Strengthening the language of his prepared text as he went along, the President asserted "it is just pure bunk" to claim progress in Vietnam must come at the sacrifice of progress at home.
Decrying what he termed "the old coalition of stand-patters and nay-sayers," Johnson said:
"They never wanted to do anything, but this year they say they can't do it because of Vietnam."
"That is just pure bunk. They were against progress before Vietnam. They are against progress now. And they'll be against progress when the war in Vietnam is a dim memory."
The President said "we can meet our commitments at home and abroad—and I believe we will."
Arguing for his Vietnam policies, he said the nation "is being tested on the anvil of war," and continued: "If we fail, we may forfeit our hope for world stability. We may risk a far more terrible war in the future because we didn't see this one through."
Despite the absence of fanfare in advance of his New York trip, Johnson was greeted in Manhattan by a vocal knot of antiwar demonstrators shouting, "Johnson, murderer!"
Little of that sort of protest seemed in prospect for his weekend visit to military installations.
His first stop was Ft. Benning, Ga., where Army rangers and airborne units are trained. From there he was flying to the Marine Air Station at El Toro, Calif., to greet pilots back from Vietnam.
Shucking his big jet transport there, he was to fly by helicopter to Camp Pendleton, not far away, which is a major jump-off point for Vietnam-bound Marines.
Then he was to fly by helicopter to the flight deck of the 85,000-ton Enterprise, the largest warship in the world and a veteran of two tours in waters off North Vietnam. The Navy was ready to show him routine carrier operations before and after dark.
Following a night aboard the big ship, Johnson is to fly to McConnell Air Force base near Wichita, Kan., Saturday, then go to a Coast Guard station at Yorktown, Va.
The President is expected to return to the White House late Saturday or sometime Sunday.

Democrat Critical of Own Party

LITTLE ROCK (AP) — The state Democratic Party's television show drew criticism Thursday from state Rep. Doug Brandon of Little Rock, who said he was "shocked to have to protect my work from the criticism of my own party and its official spokesmen."
The program, "Info '68", attacked Gov. Winthrop Rockefeller for signing into law Act 113 of 1967. Brandon, a democrat, sponsored the bill and a predominantly Democratic legislature passed the bill with a substantial majority.
"As I explained in detail in a news conference Monday, this Democratic act... cannot be the scapegoat for the Republicans' fiscal crisis," Brandon said Thursday.
"Obviously the TV script writer had not read or understood the nature of Act 113 because of the gross errors in presentation of last (Wednesday) night," Brandon said.
The act is designed to build the industrial development program in the state by exempting machinery and equipment that perform an actual manufacturing process from the sales and use tax, Brandon said.
"For some time I've been prepared to defend my legislative record from the attacks of Republicans or legitimate opponents in the Democratic primaries, but I am shocked to have to protect my work from the criticisms of my own party and its official spokesmen," Brandon said.
"But I will do so because I am proud of my record of public service," he said.
"The Democratic Party's TV show... parroted the same errors found in Orval Faubus' newspaper of last month," he said.
Brandon says the bill's first cost will be around \$1 million, but that it will be recovered in several years by bringing in new industry. The former governor's paper carried an article charging the act would cost the state \$8 million in revenue. The state Revenue Department estimated the loss possibly at \$5 million.

Actor Charles Bickford Dies at 78

HOLLYWOOD (AP) — Actor Charles Bickford, who played rugged he-man roles on the stage, screen and television, died Thursday night at 78.

One of Hollywood's top character actors, Bickford succumbed in the University of California at Los Angeles Medical Center.

After suffering an attack of emphysema, he was hospitalized last July. The illness later was complicated by an infection of the bloodstream and pneumonia.

A friend said Bickford was "still hard, strong and gruff" until the end.

Survivors include his widow, actress Beatrice Loring, whom he married in 1919, and a married son Rex, 42, and daughter, Doris. No funeral plans have been made.

The red-haired Bickford, after more than 100 film credits, was enjoying success in television as the hard-fisted ranch owner on "The Virginian." Recently actor John McIntire—who moved into "Wagon Train" when Ward Bond died—filled in for Bickford.

A multimillionaire, Bickford often played a captain of industry or a domineering father or

Dear Mrs. G: You have the right attitude, but if it will be received wrong, then perhaps you should give the shirts to a needy family who will appreciate them. Your sister-in-law doesn't want to feel "beholden"—which is understandable among friends and relatives.—H.

Dear Helen: If the people who bemoan locked churches and wonder where to spend a few minutes alone with God were half as devout as they pretend, they would remember that Jesus told his disciples to lock themselves in a closet to pray "and thy Father which seeth in secret will reward thee openly." politician. He won an Academy Award nomination for "Johnny Belinda" but once described cars as "a little bit toothsome." Born January 1, 1889 in Cambridge, Mass., Bickford did almost everything but act in his early years. In his autobiography, "Bulls, Balls, Bicycles and Actors" he wrote in sprightly style of things that happened to him in transit from a roughneck logger, hobo, Barker, roach exterminator, U.S. Navy boxer, vaudeville performer, Broadway star to cinema.

Once he got into a dispute with Louis B. Mayer, and the producer fired him.

"I wouldn't give in, I wouldn't be disciplined," Bickford recalled, "and Mayer said I would never play again. The rest of the studios, which didn't dare oppose, stood behind him."

"I was blacklisted but I stayed on—not because of motion pictures, but because I like California—stayed on, marked time, took care of myself, found outside interests."

At the time of his death, Bickford owned a feed business for race horses, a delivery service, and a medical exchange for Beverly Hills doctors.

Although Bickford admitted that his speak-your-mind, shoot-from-the-hip attitude often won him enemies, he never regretted it.

"I have no use for people in general," he said crustily.

Bickford's show business career began in San Francisco where he found himself penniless after a trip to China. He met two blondes and the manager of a burlesque show, and was invited to have a drink. After a few rounds, the manager asked him to join the show.

Bring your eyes into play the natural way. Use a cake or pencil eye liner in black or brown according to your hair color. Redheads and blondes should use brown. Bobcats End Season With Nashville

By RALPH ROUNTON
Star Sports Writer

All things, good or bad, must eventually come to an end. With a good morale the Hope Bobcats wrap up 1987 by playing host to the Nashville Scrappers tonight.

It goes without saying that the Bobcats will be ready, considering the rivalry and the top effort of the final game. Add to that the thunderous pep rally for the Bobcats which was held at the high school this afternoon, and Glaze's men should be eight miles high come the 7:30 p.m. Poor old Nashville isn't so poor this year, either, with an impressive 8-1 record. The Scrappers run on offense from the Arkansas - I, with a wing-back set to the strongside, where an end is split. They have a fine option-play quarterback in James Turley, and he can throw to end Billy White, who is an excellent receiver.

The Scrappers love to run, though, and they are quick. Besides Turley, a 10.3 man in the 100, they have shifty Ronnie Haller on the wing, along with Bubba Wallis and power runner Jim Worley in the backfield. Coach Joe Goodrum also has an experienced line.

With six seniors and one junior on the forward wall, Nashville boasts of size and quickness as well as that 169 per man average. Put that all together and you have an offensive unit which averages 27 points a game.

But what about defensive men, you say. Well, they have given up 7.2 points per game, or usually a three-touchdown spread over the opposition. The Scrappers set up in the 5-4-2 defensive alignment, with two linebackers and two cornerbacks. Eight seniors start on defense, giving the indication of lean years to come for Nashville.

And that's Nashville in a nutshell. On the films they seem as though they might depend more on kick returns than folks usually get on Hope, and if the Bobcats and their patented defensive unit can shut down Turley and Co., this appears to be the perfect set time for the Bobcats to jail. We nearly did against Warren.

Once again, the season's final kickoff is scheduled for 7:30 p.m. in Hammons Stadium this evening. KXAR will broadcast the

Good Deer Season Indicated

LITTLE ROCK (AP) — A state Game and Fish Commission official said Thursday indications are that the deer harvest during the season which opens Monday will be one of the state's best.

Gene Rush, commission game division chief, said there was reason to believe that about "21,000 to 25,000 deer will be killed" during the three hunting periods.

The buck harvest, which is heaviest during the first period, is expected to be higher in the extreme southern and central Arkansas areas.

Regulations this year allow the use of any type of dog in the areas open to the use of them, but no dogs will be allowed in management units 9 and 10 or in the Muddy Creek management area.

The St. Francis National Forest, located in Lee and Phillips counties, will be closed to deer hunters during the three gun periods, as will be the four national game refuges, Wapanocca, Holla Bend, Big Lake and White River.

There will be two deer-hunting periods at the White River Refuge on a permit basis.

No deer hunting will be allowed on Brandywine Island in the Mississippi River.

Pipers Snap Losing Streak in Pro Play

By THE ASSOCIATED PRESS

Some dead-end shooting by Connie Hawkins and Chico Vaughn snapped a three-game losing streak for the Pittsburgh Pipers in the American Basketball Association.

Hawkins, with 27 points, and Vaughn, with 22, combined for 49 points to lead the Pipers over the Minnesota Muskies at Pittsburgh Thursday night. The Muskies took a 12-point lead in the third period, but couldn't hold it when Hawkins and Vaughn cut loose.

Five of Vaughn's seven baskets were three-pointers from outside the 25-foot line. Hawkins got 10 field goals and made seven of seven free throws. Don Freeman topped the Muskies with 23 points.

The Oakland Oaks snapped a five-game losing streak by edging the Houston Mavericks 99-98 in the other ABA scheduled game. Houston had the ball for the last 22 seconds, but Dewitt Maynard's try for a winning basket in the closing seconds bounced off the rim.

Jim Hadnot led the winners with 24 points. Art Becker topped Houston with 20.

26-19, UCLA will top Washington, 10-8, and Wyoming's Cowboys will ride roughshod over New Mexico, 37-3.

Right Talent Hard to Get Together

By ED SCHUYLER Jr.

Associated Press Sports Writer

"When you get a lot of talent together, sometimes it's hard to bring it together as a unit."

So says Willis Reed.

And for a time Thursday night it looked like it was going to be another one of those hard times for Reed and the rest of the New York Knickerbockers.

The Knicks, considered by most observers to have more talent than they've had in many a year, looked something like a computer with its tape in backwards as they fell behind 32-22 to Cincinnati after one quarter. Then, presto—every unit clicked and the Knicks had a 123-106 National Basketball Association victory over the Royals.

In other NBA action, Detroit edged Seattle 119-118 in the opening half of a doubleheader which also featured the Knicks-Royals at NKEW York's Madison Square Garden, and Boston beat the Bulls 107-93 at Chicago.

"There's no team other than Boston or Philadelphia that is deeper than us," Reed said after the Knicks ran the Royals, hobbled by Oscar Robertson's injury and the lack of a big man to help Jerry Lucas, off the court.

The Knicks began clicking as soon as the second period started, running off 10 straight points to tie the game at 32-32. They led 88-83 after three periods and then clinched their sixth victory in 13 games when Walt Bellamy and Dick Barnett each hit for eight points to give them a 104-89 lead.

Detroit trailed for most of the game, took a 119-115 and then spent some anxious seconds.

Joe Strawder put Detroit ahead 117-115 with a foul shot. Eddie Miles then batted the ball from the hands of Seattle's Bob Rule and Detroit's Dave Bing picked it up. He was fouled in the backcourt and made both foul shots for a 119-115 Piston lead.

Walt Hazard then made it 119-117 with a Seattle basket, and with five seconds left Bob Weiss stole Detroit's inbound pass, took a shot and was fouled. He made the first but missed the second, and the Pistons' Dave DeBusschere grabbed the rebound.

Bing led all scorers with 39 points. Hazard dumped in 33 and Rule 32 for Supersonics.

Boston fell behind 58-45 at intermission but roared back for its eighth victory in nine games as Sam Jones scored 18 points in the second half.

Jones finished with 25 and player-coach Bill Russell added 21 for the Celtics. Jerry Sloan and Bob Boozer each got 24 for the Bulls.

In the American Basketball Association, Pittsburgh beat Minnesota 97-86 and Oakland edged Houston 99-98.

Ruling Sets Up District Title Game

FORREST CITY, Ark. (AP)—

A last minute ruling by Region 2AA official Thursday night has pitted Forrest City against West Memphis here tonight in a battle for the conference championship.

Officials ruled that the games the two teams played earlier this year against Marianna and Batesville were conference games, leaving Forrest City with a 5-1-1 record and West Memphis at 6-0-1 in conference play.

Confusion arose over the Arkansas Athletic Association rule that teams must play in a round robin to be eligible for conference play. Marianna joined the 2AA conference last year, but was unable to play against Batesville because of schedule difficulties.

The rule was earlier interpreted to mean that games played against Batesville and Marianna didn't count as conference games, leaving Forrest City with a 3-1-1 record and

Picks Likely Pro Football Winners

NEW YORK (AP) — New Orleans' upset of the heavily favored Philadelphia Eagles last Sunday and the flu bug combined to knock out Jack Hard, the regular operator of this weekly guessing game. While Hard is recuperating and resting on a 56-20-7 record, we borrowed his play books and miniature computer.

But you need more help than that in trying to figure out the big game of the week—Green Bay vs. Cleveland—for both the National and American football leagues Sunday.

Baltimore finally caught up to Green Bay after losing to the Packers five straight, and now the Browns have the same chance against the Packers at Milwaukee. It's going to be very close but we don't think the Browns are going to make it.

Here's how we see the Sunday program:

NFL

Green Bay 17, Cleveland 14—The Packers, leaders in the Central Division with 5-2-1, will have Donny Anderson and Ben Wilson as their running backs in place of injured regulars Elijah Pitts and Jim Grabowski. But Vince Lombardi has Bart Starr at quarterback as well as the NFL's No. 1 team in total defense and pass defense.

The Browns, 5-3, tied with St. Louis for first in the Century Division, have a battered quarterback in Frank Ryan but a terrific 1-2 running punch in Leroy Kelly and Ernie Green. This match-up will be seen on television in most parts of the country. Starting time is 4 p.m., EST.

Baltimore 35, Atlanta 7—The Colts, 6-0-2, the only unbeaten team in the NFL and just a game in front of Los Angeles in the Coastal Division, beat the Falcons, 1-6-1, 38-31, in their opener after holding a 31-7 lead at the half. Johnny Unitas and Co. won't let down this time at Atlanta.

Dallas 28, New Orleans 14—The Cowboys, 6-2, leaders of the Cahill Division, should break the Saints' one-game winning streak at New Orleans 50 Dallas beat the Saints, now 1-7, in the air and without Don Meredith in Dallas, 14-10. This time the Cowboys have Mered III at the throttle.

St. Louis 31, Pittsburgh 7—The Cardinals, 5-3 have Jim Bakken, the league's top scorer, to throw a fright into the Steelers, 2-6, at St. Louis. Bakken kicked a record seven field goals in nine attempts in a 28-14 win over the Steelers at Pittsburgh on Sept. 24.

Los Angeles 35, Philadelphia 7—The erratic Eagles, upset 31-24 by New Orleans last week, are hurting badly with tackle Bob Brown, tight end Mike Ditka and defensive back Ron Medved out. L.A. is 5-1-2 and Philadelphia 4-4.

Chicago 28, New York 24—The Giants, 4-4, have been hurt badly on kickoff returns. The Bears, 3-5, have the NFL's best kickoff returner in Gale Sayers.

San Francisco 28, Washington 14—The 49ers, 5-3, have lost their last two games while the Redskins, 2-4-2, haven't won in their last five (two ties, three losses). Washington probably regains linebacker Sam Huff from the injury list but it won't be enough even on the homefield.

Minnesota 17, Detroit 7—An day after Crozier, strided for 18 upset for the rebounding Vikings' fine rookies are coming along fast.

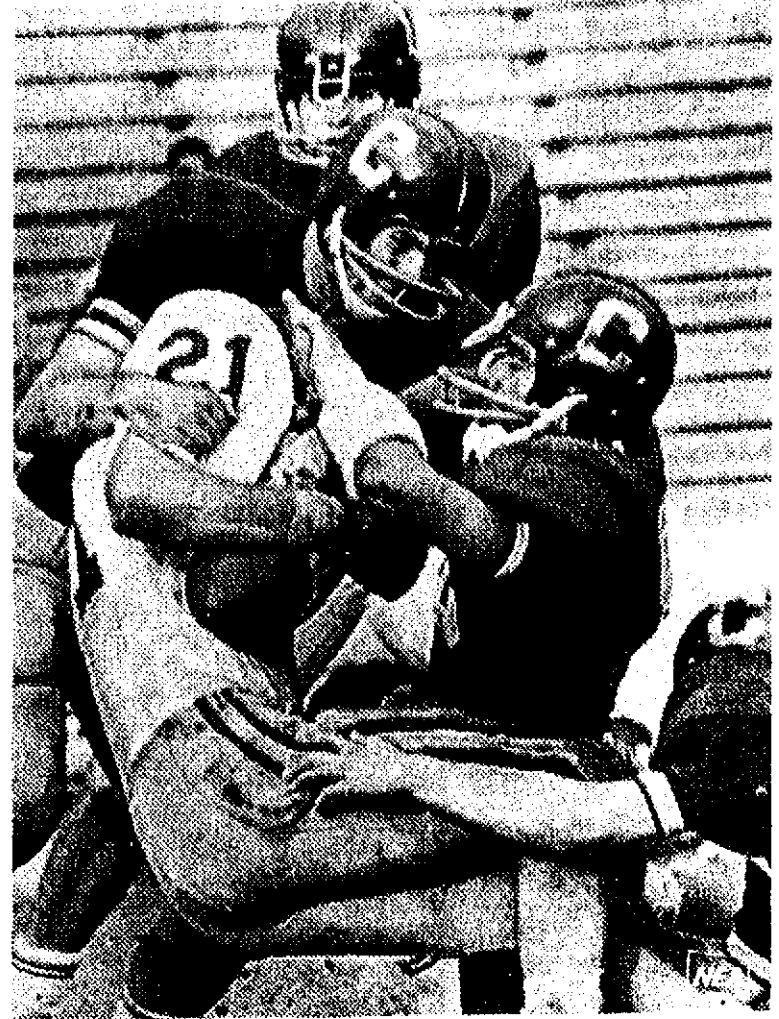

AFL

New York 28, Buffalo 24—The Bills, 3-5, have beaten the Jets, power play. He blanked the 5-2-1, in their last four meetings. Although the Jets have lost run-

West Memphis at 5-0-0.

Region 2AA officials ruled Thursday night that the games would count because neither Batesville or Marianna were in contention for the championship. This put Forrest City in reach of a possible championship.

Forrest City defeated both Marianna and Batesville, while West Memphis lost its opener to Marianna and tied Batesville.

CC RIDERS: These California riders seem to be squabbling among themselves as to who took USC halfback Steve Grady's head, although the Golden Bears were really going after the football.

Nicklaus, Palmer in Stroke Lead

MEXICO CITY (AP) —

Academy Palmer and Jack Nicklaus, fighting to keep the World Cup golf team championship for the United States, held a one-point lead over Argentina today as the second round started and 80 golfers sharpened to the course.

Palmer, who said the greens seemed to have gotten faster overnight, made most putts count as he came out of the first nine two-under par, shaved off two more strokes on the back nine, and finished with a 68 that tied him with Argentina's Florian Molina for low individual score.

Nicklaus fired a steady 72 to give Palmer the backing he needed. Molina's teammate, Fidel de Luca, came in at 73.

South Africa's Gary Player carded a 69 on the strength of his putting. He finished with a flourish, sinking a 30-foot putt on the 17th and a 10-footer on the 18th for two birdies.

Palmer and Nicklaus, who are defending the team title they won last year in Tokyo, played three holes in the rain, which caught Player and teammate Harold Henning on the 18th.

Player and Henning hoped to get back in it as a team today. "Harold finished with a 74," Player said Thursday, "but he had some impossible shots. He didn't play that badly, more like a 71."

In at 70 were Canada's Al Baiding, Spain's Ramon Sola, and Jose Maria Gonzalez of Brazil. George Knudson of Canada, defending his individual championship won at Tokyo, shot a 73, but his teammate said later, "George will be the individual star before this thing is over."

Baiding said he believed the altitude was affecting him, as did Palmer. "I've never felt so shaky," said Baiding.

Palmer said that the program tourney Wednesday the altitude affected him so much he couldn't drive. "But I felt much better today," Palmer said.

The 7,250-yard course demands exacting placement of shots, and all golfers here talk about the greens summing them up in one word: "Difficult."

Trailing the U.S. and Argentina in team standings as the second round started were Canada, South Africa, and the Belgian

SOLUNAR TABLES

By RICHARD ALDEN KNIGHT

The schedule of lunar periods, as printed below, has been taken from Richard Alden Knight's SOLUNAR TABLES. Play your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major Periods are shown in boldface type. These begin at the times shown and last for an hour and a half or two hours thereafter. The Minor Periods, shown in regular type, are of somewhat shorter duration.

Use Central Standard Time.

Penn State Pick to Top Wolfpack; Trojans Will Retain No. 1 Rating

By MAJOR AMOS B. HOOPLE

Peerless Pigskin Prophet

Egad, friends, this is a week that is guaranteed to please even the zaniest football filbert. In every section of our glorious land collegiate titans are set to have at each other!

In the east, potent Penn State takes on undefeated (8-0) North Carolina State.

In the Midwest the surprising Indiana lads (7-0) meet Michigan State and Minnesota entertains Purdue in important Big Ten engagements.

A quartet of Southeastern Conference clashes are on tap in the south: Georgia-Florida, Alabama-A.L.S.U., Kentucky-Vanderbilt and Auburn-Miss. State.

The southwest features S.M.U. at Texas A&M, and Wichita State testing the rugged North Texas State (5-0-1) Eagles.

The far west, boasting three of the nation's dwindling list of unbeaten teams, has Southern California (8-0) meeting dangerous Oregon State, UCLA (6-0-1) visiting Washington, and Wyoming (8-0) journeying to New Mexico.

Last week the Hoople System kaff-kaff—correctly forecast that Miami would knock Virginia Tech from the ranks of the unbeaten and that Yale's Bulldogs would do the same to Dartmouth. We narrowly missed on our U.C.I. (Oregon State forecast when the Uclans rallied to boot three field goals for a 16 to the um kumph!

Dr. J. M. Inorbit, our West Coast correspondent who is on leave from the Cape Kennedy Space Center, assures us that Southern California will hold on to its No. 1 rating by turning back the tough Beavers.

LIKE FATHER, like son, fits well in the case of Prince Faisal, royal offspring of Jordan's uniform-loving King Hussein. Wearing an air force uniform and a big smile, the prince recently celebrated his third birthday.

SAX FUN packs them in at St. Odilia's Church in Los Angeles where Fr. James Perrone, uses music to "reach" parishioners. Fr. Perrone, 39, played saxophone with the bands of Louis Prima and Tony Pastor during the 1940s before he took his vows, and the skill he retained is an asset in drawing church attendance.

PLAYING IT COOL, technicians prepare an auto for low-temperature operation in simulated winter conditions, to test the performance of fuels of varying volatility. The project is one of several pollution control research projects sponsored by the American Petroleum Institute. The giant blower in the foreground simulates on-road wind conditions in the room, where temperatures can be as cold as 60 degrees below zero.

EIGHT-TON HEARING AID is really a sonar dome made to help men on Navy destroyers detect submarines. It is 34 feet long, 11 feet wide and eight feet high, and possesses acoustical properties similar to sea water. B. F. Goodrich engineers in Akron, Ohio, claim it is the largest rubber product ever molded in one piece.

Alcohol, Barbiturates Dangerous Combination

By WAYNE G. BRANDSTADT, M.D.

Q—I have heard that death may be caused by a combina-
tion of alcohol and barbitu-
rates. Is this because, when
intoxicated, a person is likely
to take an overdose of bar-
biturate? What about taking
muscle relaxants after drink-
ing?

A—Although the worst re-
sults of taking barbiturates
after drinking are due to tak-
ing an overdose, the combina-
tion is always dangerous be-
cause both drugs are nervous
system depressants and the
alcohol more than doubles the
depressant action of the bar-
biturate.

Some muscle relaxants con-
tain barbiturates and others
are liver poisons, just as is
alcohol. All of them, like al-
cohol, are depressants. There-
fore, although little is known
specifically about their effect
when combined with alcohol,
I would advise that they be
used with great caution, if at
all, when you have had a few
drinks.

Q—What is neuritis? How
long does it last? What kind
of doctor is best for it?

A—This is an inflammation
of one or more nerves. It may
be caused by poisoning with
lead, arsenic, alcohol and
other chemicals; such infec-
tions as diphtheria, leprosy,
German measles, typhus and
typhoid; pressure on the nerve
by a tumor; injury; poor cir-
culation or a vitamin B de-
ficiency. How long it would
last depends on the cause and
how promptly corrective
measures are applied. A
nerve specialist would be able
either to help you or prevent
your wasting time and money.

Westport bridge teacher
Sally Johnson won the mixed
pairs at Grossinger's in New
York this September. Sally
really had to bid and play this
hand well, and we will let her
tell her own story:

"When my partner didn't
bother to use Blackwood on
his way to six, he told me that
he wasn't interested in aces.
Therefore, I could be sure
that he held all four first
round controls. In that case,
my king-small of clubs and
seven-card trump suit had to
be pure gold, so I went on
from six to seven.

"The dummy was a trifle
disappointing. I had hoped for
better clubs and, of course,
the queen of hearts was worth
nothing to me. I just didn't
know how to go about playing
the hand. Of course, if clubs
would break a friendly 3-2, I
would have no worries. I also
would have a cinch if I could
ruff out my three spades in
dummy. The problem there
was that I would have to get
to my hand three times for

Scene From the Past Emphasizes Change in Rural Life

Israel Refuses to Debate at Midnight

By TOM HOGE
Associated Press Writer
UNITED NATIONS, N.Y. (AP) — Egypt had a clear field against Israel in the U.N. Security Council Thursday night as the Israelis refused to debate because a Soviet maneuver had placed them far down on the speaker's list.

The United States rallied to Israel's cause but became embroiled with the Soviet Union, first in a procedural clash and then in debate on the Middle East deadlock.

A U.S. effort to let Israel speak directly after Egypt was defeated in a narrow vote that may have been an indication of future balloting on resolutions before the 15-nation council.

Incensed at being relegated to seventh place, Israeli Foreign Minister Abba Eban issued a statement to newsmen that he "declined the offer to address the Security Council at midnight in conditions prejudicial to Israel's position." He will speak when the debate resumes Monday morning.

An Israeli spokesman said: "The council by its action, has manifested one-sidedness adversely affecting the objective and impartial consideration of a matter of grave importance."

The council is considering two

rival resolutions.

One by India, Mali and Nigeria calls for Israeli withdrawal from all Arab territories and an end to Arab belligerence against Israel. Israel rejected the draft when it was first circulated before the session.

The other draft, by the United States, calls for "withdrawal of armed forces occupied territories," without naming Israel, "without naming Israel."

Egyptian Foreign Minister Mahmoud Riad opened the long session which lasted until 11:14 a.m.—with a lengthy blast against Israel. He accused the Jewish nation of waging a "piecemeal war" and called on the council for enforcement measures if Israeli troops don't withdraw from occupied Arab soil.

"We urge," Riad declared, "that military, political and economic assistance to Israel be withheld until Israel withdraws its aggressive forces from all the territories it has occupied as a result of its aggression."

The procedural battle came when the United States moved that both the Egyptian and Israeli speakers be given 15 minutes each to speak ahead of all council members, but the proposal fell one short of the nine votes needed for adoption.

The vote was 8-0 in favor of the U.S. motion with 7 abstentions. Those in favor were the United States, Britain, Nationalist China, Argentina, Brazil, Canada, Denmark and Japan. Abstaining were the Soviet Union,

pected to be a major topic. So far, the investigation of Negro disorders in Nashville and in Houston has been marked by charges of ties between poverty workers and racial militants.

McClellan said he does not know whether this will be a pattern as the subcommittee moves on to other cities in a riot investigation expected to continue well into next year.

He said the inquiry will continue until it determines the pattern of cause and possible cure in city race riots. "But when that point will be, I don't know," he said.

The OEO faces a different kind of problem in the House—a Republican effort to reduce its funds by \$600 million. Rep. Charles E. Goodell, R-N.Y., proposed Thursday reducing from \$2.06 billion to \$1.4 billion President Johnson's money request for the OEO in fiscal 1968.

The House isn't expected to vote on the proposal until next week.

France, Bulgaria, Ethiopia, India, Mali and Nigeria.

The United States entered its motion after the Soviet Union had persuaded the council's president for November, Mamadou Boukacar Kante of Mali, to change the speakers' list so that Israel was dropped from second to seventh position.

Once a fine, necessary mode of transportation the farm wagon of this type has faded from the scene with the advance of modern cars and trucks. lite of 140 tons. From there, an Apollo spacecraft went out a lonely 11,386 miles and sized home into a rainy Pacific in a tough test of its heat shield.

From dream countdown to on-the-button liftoff to splashdown only 10 miles off target, it took just eight hours and 37 minutes to prove the United States owner of a clear, wide lead in the space race.

The largest satellite orbited by the Soviet Union weighed only 13½ tons, and their well-advertised automatic docking mission earlier this month is a symptom that their moon plans are based on a booster capability about half that of Saturn 5. The American rocket can loft the kind of moon craft that the Russians apparently must patch together in orbit.

Despite Thursday's historic success, the American space planners are dictating a cautious course to the moon. They will take the Apollo

spacecraft to the plant where it was built in California and check the performance of its heat shield and the basic design of the quick-exit hatch devised after the fatal fire.

Von Braun said his coworkers will seek the cause of the rocket's only problem, a fuel vent that failed to close in the third stage.

Next steps in the man-to-the-moon program go like this:

In January, 1968, an uprated Saturn 1B is to fly with a working version of the moon-landing lunar module, represented on Thursday's flight by a dummy ship.

In February, a Saturn 5 now being assembled at the Cape is slated to take a new, fireproofed version of the Apollo ship on a virtual carbon-copy of the maiden launch.

The first manned flight aboard a Saturn 5 may come before the end of next year, if the next missions go well as the shakedown flight.

Fulbright in Denial of Accusation

LITTLE ROCK (AP) — Sen. J. William Fulbright denied Thursday an accusation made by former Gov. Sid McMath that America's involvement in the Vietnam War was a "direct result of policies which... Fulbright himself advanced and championed."

McMath, a major general in reserve and a supporter of the war, told the Little Rock University Foreign Relations Club Wednesday that Fulbright had supported the 1954 agreement that created Southeast Asia Treaty Organization and the 1964 Gulf of Tonkin resolution, which called for the president to take whatever action was necessary to repel communist aggression.

In an interview here, Fulbright said he didn't consider the SEATO treaty as a legal basis for the present war effort. "I do not believe it authorizes the action that is being taken," he said, adding that the SEATO treaty was the work of former Secretary of State John Foster Dulles and that it was approved long before he became chairman of the Senate Foreign Relations Committee.

As for the Gulf of Tonkin resolution, Fulbright said his support came with the urgency with which it was presented by

Yankee Thrift Did Pay Off

BOSTON (AP) — Don't tell William Shriberg that his Yankee thrift didn't pay off. For more than 30 years he saved his children's outgrown shoes.

Now they've been donated to a state school for retarded youngsters.

The 300 pairs of shoes, hung from nails in the attic of his home in suburban Newton, came to public attention when the Boston Globe published a story about them.

"After that we had many, many telephone calls asking for the shoes," Mrs. Shriberg said Wednesday. "Finally, a doctor called and said the shoes were needed at Fernald School for retarded children."

A use for the shoes was found just in time. With their four children now aged 21-33, the Shribergs have moved to an apartment.

the Johnson Administration.

"I have on numerous occasions stated that my part in this was a mistake," Fulbright said, "I regret that we took such precipitate action."

He said the language was "much too broad, even for that occasion" but that the administration urged that it be approved without any amendments to save time.

Fulbright said he didn't believe McMath's statement was correct, but that he would have to check the Congressional Record before further comment.

Wonderful Region
Is the One
Where We Live

A man who has a large farming operation in the Hope area complimented us on last Tuesday's news story summarizing the 10-year frost record here. Our story showed that the 27 degrees recorded last Saturday, Nov. 4, was about average for the season's first killing frost. Over the last 10 years the first "killer" has varied from 1966's earliest, Oct. 20, to 1964's latest, Nov. 20.

What impressed our friend was that our mere printing of the statistical story supported his unhappy recollection of a poor Autumn harvest in 1966.

But this Almanac service is almost the oldest and most cherished printed report that men have. And every newspaper tries to deliver this service on its local scene.

It's a service so well recognized that even in the ABC Book, containing our statistical record for inspection by the Chicago examiners of the Audit Bureau of Circulations, there is a blank column headed: "Remarks — regarding weather and other daily conditions or occurrences."

I have been filling in that column for the last 10 years with the official reports from the Fruit & Truck Branch Experiment Station, and of course this column has a potential news-story which suddenly comes alive every October-November period when Old Man Frost is threatening.

Our report of Tuesday, April 7, was to our farmer friend a matter of business. But it had a nostalgic overtone for the editor while writing it.

Only an imported citizen knows how truly wonderful is the region in which we live. Natives take our climate as a matter of course. But a Pennsylvania import, such as your editor, recalls a boyhood of hard winters, late Springs, and early Falls. On our mountain farm near Wilkes-Barre, Pa., the first killing frost would sometimes arrive as early as the last week in August, always by mid-September. And winter snows would lie in sheltered ravines sometimes as late as June.

Because of the short growing season farmers in northern Pennsylvania and southern New York state had to plant the "90-day Wonder Yellow Banham Corn" — and even this prodigy crop was sometimes nipped by early frost.

Down here it's a more mellow life, with early Spring and late Autumns. I like it.

And that's what the editor was thinking about when he wrote last Tuesday's Frost Report for 1967...

Praises Friends of Draft Dodger

CINCINNATI, Ohio (AP) — A federal judge commended 40 friends of an accused draft dodger for their behavior at his arraignment Thursday.

The spectators, who described themselves as Antioch College students, came to U.S. District Court to lend moral support to Daniel C. Bromley, 18, Sharonville, Ohio, who is charged with failure to register for Selective Service.

They sat quietly for more than an hour until Bromley's case was called and then stood up while Judge Timothy S. Hogan granted a continuance. As they began to file out, the judge stopped them.

"Before you all leave, I want to commend you on your conduct," he told the group.

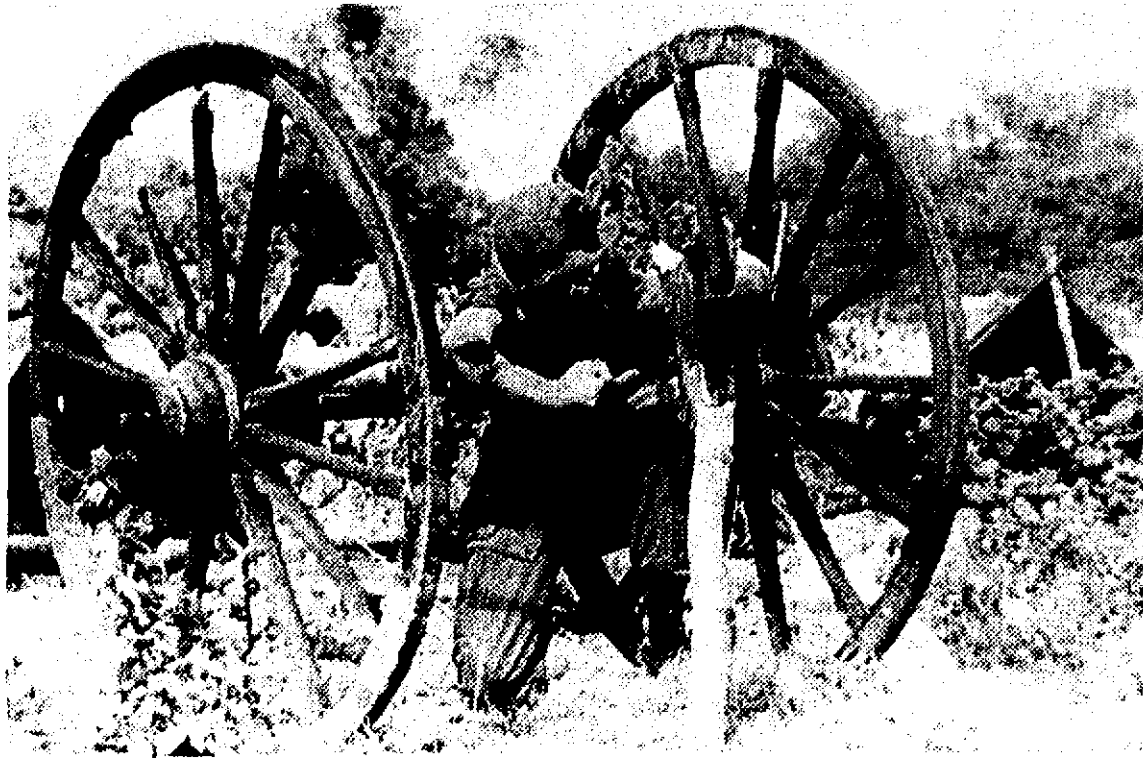

Has Smallest Cotton Crop

MEMPHIS, Tenn. (AP) — Albert Brown, a 77-year-old retired salesman, was mightily proud of what he termed the smallest cotton crop in the country.

He had some extra space in his backyard and got some cotton seed to plant. He grew 82 stalks and harvested a grand total of 20 pounds of cotton.

His troubles began when he took the cotton to a gin. Officials couldn't buy it because Brown didn't have a cotton allotment.

Brown gave away his harvest and commented: "Now I'm beginning to see what this farming is all about."

CIVIL WAR LOOK has a way of cropping up unexpectedly in the Vietnam war. First came the armored gunboats of Vietnam's Mekong Delta, resembling the famous Monitor and Merrimack, and now this 90mm recoilless rifle mounted on a Viet Cong oxcart frame by men of the 27th Infantry harkens back to artillery pieces of yore.

McClellan Says Laxity Evident

By WALTER R. MEARS
Associated Press Writer
WASHINGTON (AP) — Sen. John L. McClellan, heading a Senate panel probing big-city riots, says hearings indicate laxity in the federal anti-poverty program.

The Arkansas Democrat, chairman of the Senate permanent investigations subcommittee, said he hopes its probe will lead to reform within the Office of Economic Opportunity.

Sen. Jacob K. Javits, R-N.Y., said in an interview he feels the investigation may be turning into a trial of the federal anti-poverty agency. "This is not the place to try the OEO," said Javits.

"I'm not out to get the OEO," McClellan said in a separate interview, but added he felt the probe might point up the need for policy changes within the agency.

When the inquiry resumes in about a week the operation of poverty-fighting programs in Nashville, Tenn., is again expected.

Memory-a Rosary of Recall, a Necklace of the Human Spirit

By HAL BOYLE
NEW YORK (AP) — Memory is a rosary of recall.

It is a gracious necklace of the human spirit. Each bead is a just event or precious experience kept shining with the fadeless luster of the mind.

You have strung yourself quite a necklace if you can look back and remember when—

If a child was often cranky and listless, it was suspected that he probably had worms.

You were pretty sure an elderly man had false teeth if he consistently declined to eat an apple in the presence of others.

During summers the street repair crews would give every kid in the neighborhood a piece of warm tar to chew. It had only one defect—you couldn't blow bubbles with it.

The cultural center of the American home was the family piano. Mother or sister played, while everyone else gathered around and sang.

Father always rather hated to have company for dinner, as that meant having to eat in the dining room rather than the kitchen, where it was more relaxed.

One of the big winning signs that inflation had arrived was the doctor's decision to start charging \$3 for home calls.

It was a mark of gentility to eat store-bought bread. In most small towns women still baked it at home.

A wife who couldn't turn out a real tasty pie was regarded as a slipshod housekeeper and deficient in character.

A prosperous farmer proud of his stature in the community always had the hired hand oil the harness until it shone before driving his horse and wagon into town on Saturday. After

Two Convicted of Rape at Magnolia

MAGNOLIA, Ark. (AP) — An all-male jury convicted two Chicot County men Thursday of first-degree rape of two teenage girls July 24th on a rural road in Columbia County. They were sentenced to 30-years imprisonment.

The jury deliberated nearly three hours before convicting James B. Randle, 28, and Clifford L. Wright, 20, both of near Lake Village, of raping a 15-year-old Calhoun County girl and a 16-year-old Dallas, Tex., girl.

Testimony Thursday revealed that the girls were unable to find an El Dorado doctor to treat them following the incident and they had to be brought here where a county health doctor treated them.

buying his supplies, he usually went over to the chouthouse to find out who was being tried for what and to discuss his old cronies how the elected officials were wasting the county's money.

Whenever you saw a lad with a bandaged thumb, you knew he had burned himself while trying to learn the esoteric art of fighting a kitchen match with his thumbnail.

When a single lady over 30 got herself a cat it was thought she had given up hope of landing herself a husband and had become reconciled to the idea of being an old maid.

An intellectual was anybody who subscribed to the Literary Digest magazine. After 40, a majority of Americans rarely bought or read any book except the Bible.

A necktie was something many men never wore except when counting, going to church, or attending weddings and funerals.

When a husband died without leaving much insurance money, his wife immediately had to consider whether she could support the family by taking in boarders.

A workman received his weekly pay in cash on Saturday afternoon. If he was cautious, he'd put the loose change in his pocket and the folding money in one of his shoes, to be sure he'd get it home intact. And if he was very cautious, he'd put part of the money in one shoe, and the rest in the other.

Merchants were decrying that new-fangled instrument, the radio, as an invention of the devil that would only cause people to flitter away their time uselessly.

Those were the days! Remember?

LBJ Going on a Vote Getting Trip

By FRANK CORMIER
Associated Press Writer
WASHINGTON (AP) — President Johnson, displaying a new fighting stance in his effort to confound pollsters and woo voters, sets out on a coast-to-coast tour to visit American fighting men ashore and at sea.

Embarking on his first major barnstorming trip of 1967, Johnson was scheduled before nightfall today to watch Army ranger and paratroop training in Georgia, greet Vietnam combat pilots in California and observe operations aboard the nuclear-powered carrier Enterprise somewhere in the Pacific.

The two-day journey will take the commander-in-chief to bases of all the armed services—

4-H Group to Attend Little Rock Meet

Hempstead County 4-H members will be attending the State 4-H Congress to be held in Little Rock, November 10-11. The congress is designed to recognize the state's outstanding 4-H members, adult 4-H leaders, and sponsoring organizations. Linda Kay Reece and Myrtle Williamson will be among 300 attending, receiving recognition for outstanding 4-H project work.

Linda Kay is the daughter of Mr. and Mrs. Howard Reece of Shover Springs. She has achieved high honors in 4-H work, one of which was State winner in Foods and Nutrition.

She has also done much work in citizenship and leadership. She attended the Americanism Seminar held at Harding College in 1966. This year she was chosen as one of the four delegates from Arkansas to attend National 4-H Conference held in Washington, D.C.

Myrtle is the daughter of Mr. and Mrs. Alexander Williamson of Antioch. She has been active in 4-H club work for the last six years and has held the following offices in her club, vice president, secretary and reporter. Myrtle is a state winner in clothing.

The 4-H congress program will include a banquet, breakfast, special entertainment, a career activity, television program and lodging at Hotel Marion.

The program will begin at 10:00 a.m. Friday, November 10, followed by a three-hour "Career-O-Rama" at 1:30 p.m. This activity will feature careers relating to agriculture and home economics. Members, leaders, and agents will visit about 25 exhibits of different careers and will have an opportunity to interview the person in charge of each career exhibit.

The congress is an activity of the Agricultural Extension Service youth program.

Dolores McBride, Extension Home economist, and Mrs. Howard Reece, will be attending with the two Hempstead County winners.

Saturn 5 Brightens Space Plans

By LAWRENCE LEE
AP Aerospace Writer
CAPE KENNEDY, Fla. (AP) — America looked at a more accessible moon today with the nation's space prospects strengthened and brightened by Thursday's triumphant proving flight of the super-rocket, Saturn 5.

Running low on time, money and public confidence, the space agency stacked moon-flight machinery atop an untested rocket and sent it up.

The long shot worked like a dream, evaporating gloom haunting the space program since three astronauts burned to death in their craft at Cape Kennedy on Jan. 27.

President Johnson and Vice President Humphrey sent congratulations, the President saying the flight showed America capable of sending astronauts to the moon and bringing them home safely.

Space officials hastened to say the moon is several flights away, but Dr. Robert C. Seamans, associate administrator of NASA, called the success "clear indication that our team is not found wanting."

Thursday night, the television scout Surveyor 6 dropped gently to a spot in the middle of the moon's visible face and began sending the space agency snapshots of Sinus Medii, the cratered plain which is the last of four potential astronaut landing sites to be checked out.

Seamans said it proved "we do have the capability in this country to be pre-eminent not only in space, but in all technology."

Dr. Wernher Von Braun, who coddled the Saturn 5 from idea to steel in seven years of work, said, "It was undoubtedly the greatest moment of my life."

His "bird," the biggest thing ever to fly, climbed to 117-miles orbit with a world record safety.

Justice Dept. Opposed to Draft Plan

WASHINGTON (AP) — Justice Department officials reportedly are strongly opposed to a Selective Service System plan to induct antiwar protesters who violate the draft law, rather than use the courts for prosecution and appeal.

Sources also say the Selective Service System, headed by Lt. Gen. Lewis B. Hershey, doesn't think the Justice Department is prosecuting vigorously men charged with violating the law.

Hershey's office has prepared for legal study an order that would change the definition of a draft delinquent to cover anyone who destroys his draft card or disrupts the drafting process.

Delinquents are automatically put at the top of induction lists. Present regulations define a delinquent as one who, for example, fails to carry required draft registration and classification cards.

The Justice Department is said to feel the proposed new regulation would substitute draft boards for courts in cases where the accused seeks to appeal delinquent classification.

In an Oct. 26 letter to local draft board, Hershey recommended that college students interfering with military recruiting officers be subject to immediate draft.

The American Association of University Professors, which claims 85,000 members, protested Hershey's letter Thursday, saying it "sets down such a vague standard that local boards may induct persons for the exercise of constitutional rights."

Shows No Confidence in Johnson

By THE ASSOCIATED PRESS
Most Americans have little confidence that President Johnson, or any other politician for that matter, has the ability to handle the war in Vietnam successfully.

The Gallup Poll, in a survey conducted for the National Broadcasting Co., reported 48 per cent of the persons responding said they have "little or no" confidence in Johnson's ability to bring the war to a successful conclusion.

Only 20 per cent said they had a "lot of confidence," and another 28 per cent said they have limited confidence.

But none of the potential Republican candidates fared better than the President: Only 10 per cent said they have a lot of confidence in the war-handling abilities of Gov. Nelson Rockefeller of New York or former Vice President Richard M. Nixon, 9 per cent were fully confident of Gov. Ronald Reagan of California, 4 per cent of Sen. Charles Percy, R-Ill., and 3 per cent of Gov. George Romney of Michigan.

The President's ability to handle race relations brought "little or no" confidence marks from 51 per cent of those surveyed. However, more than 32 per cent said they have little or no confidence in any of the possible candidates in that area.

In other political events Thursday, George Wallace, Alabama's former governor, spoke in Toledo, Ohio and was met with what one aide called the worst demonstration he has ever encountered.

Nine persons were arrested after fighting broke out between hecklers and police. They were part of a mostly Negro group of about 100 that jeered through the first 15 minutes of the speech. Most of the 2,200 persons in the audience appeared to favor Wallace and tried to drown the boos with applause and cheers.

Wallace arrived in Ohio Wednesday for a week-long tour of six of the state's cities. He says he is testing support for a larger campaign if he decides to run for the presidency on an independent, states rights ticket in 1968.

In Michigan, Gov. George Romney said he will go to Detroit's Veterans Memorial Building Nov. 18 to tell the nation's voters whether he will seek his party's presidential nomination.

(Editor's Note: Dr. Charles Chaplain received a letter, back on May 26, 1912 from the Rev. W. Lee Gray, pastor of the Presbyterian Church, urging Dr. Chaplain, an Ostopath, to come to Hope and practice... Here's what he wrote: "This is one of the prettiest towns in the South, and much money is handled here... More than two million for cotton alone... We have more than 20 train daily. The Iron Mountain system is the big road and recently opened a fine \$15,000 station... The A&L, L&A and the Frisco are the other railroads... Population is 6,000 and some six to eight town with 1,000 population within a radius of 25 to 50 miles and train service quite good... We have no saloons... But have seven churches, Catholic, Presbyterian, South Disciples, and Bapt... It should be noted that Dr. Charles did come to Hope where he and wife practiced for many years before their deaths.")

Doubts Letter Was From OEO

LITTLE ROCK (AP) — Glen Jernstad, director of the state Office of Economic Opportunity, said Thursday he doubts that a federal OEO official actually dictated a letter that was critical to Gov. Winthrop Rockefeller's veto of a \$100,000 supplemental food stamp loan program in Phillips County.

The state Democratic Party's news letter, the New Democrat, last week quoted Ira Kaye, chief of the OEO at Washington, as saying in the letter that the Welfare Department used faulty methods in determining the incomes of many Phillips County residents before urging the veto.

Tire Truck, Not Fire Truck

DALLAS, Tex. (AP) — A policeman, his patrol car stopped by a flat tire, called the dispatcher for help Thursday night.

Minutes later a fire truck roared up.

Back on the radio, the policeman was heard to say: "No sir. I said tire truck!"

Dug-in GIs Fighting Off the Enemy

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — U.S. Marines and Army infantrymen clashed with dug-in North Vietnamese troops in separate fierce battles within five miles of each other Thursday south of Da Nang.

The two battles, one a marathon of 26 hours along the coastal lowlands in the northernmost 1st Corps area, left 14 Americans dead and 106 wounded, U.S. headquarters reported. Thirty-five North Vietnamese were reported slain, many of them by massive bombardment from U.S. artillery, tactical fighter-bombers and helicopter gunships armed with rockets.

The U.S. Command also disclosed in its weekly summary of aircraft losses that three more American warplanes have been downed in combat over North Vietnam but were not announced at the time, bringing to 735 the total of U.S. combat planes officially reported lost in the air war against North Vietnam.

U.S. pilots flew a total of 153 missions against the North

Nation Pauses to Tribute War Veterans

By THE ASSOCIATED PRESS
The nation will pause Saturday to observe Veterans Day, commemorating the courage and patriotism of those who have served in the United States armed forces.

While citizens participate in solemn ceremony and flag-decked parades, President Johnson will complete his two-day inspection tour of defense facilities timed to coincide with the observance.

Several peace demonstrations are also scheduled including an afternoon rally in New York's Union Square sponsored by the Vietnam Veterans Against the War and Veterans for Peace in Vietnam.

Deputy Secretary of Defense Paul Nitze will speak at the traditional ceremonies at Arlington National Cemetery, Arlington, Va.

The observance stems from 1919 when President Woodrow Wilson proclaimed Nov. 11 as Armistice Day to remind Americans of the tragedies of war. In 1954 Congress established Veterans Day to honor all American veterans.

The Veterans of Foreign Wars has announced it will boycott the Arlington services this year to protest Defense Department restrictions on burials of veterans there. The limitations were imposed because of the dwindling number of grave sites available there.

Parade officials in several cities predicted record turnouts of marchers this year and Little Rock, Ark., will hold its first Veterans Day parade in more than a decade.

Little Rock parade coordinator John W. Hodoway said it would not be a pro-Vietnam war parade and that persons who objected to U.S. policy could "still in good conscience share in this observance."

Said Hodoway, "This will be a parade which says we support the veterans for all the things they have done in the past and our servicemen now serving us around the world, including those in Vietnam."

A "peace march" was planned at the University of Montana in Missoula by the University Committee for Intelligent Action.

Three college students—all veterans of Vietnam—planned a "Support Our Boys" rally in Atlantic City, N.J., because, said one, "We are tired of the kooks running around and insulting America."

Members of the Theta Xi fraternity at Georgia Tech were to run in relays 40 miles to the Griffin, Ga., home of William Jenkins, a Vietnam amputee. A symbolic chicken dinner will be given Jenkins to show support for U.S. forces in Vietnam.
